

IMMUNOGEN SUBMISSION FORM

Please submit the form via Email: Inquiries@JosmanLLC.com

Sponsor's Name:	Date:
Immunogen ID:	Buffer:
Total amount submitted:	Concentration:
Number of tubes:	

Species of Animals: Rabbit <input type="checkbox"/> Mouse <input type="checkbox"/> Rat <input type="checkbox"/>
Dosage to be used for initial immunization per animal:
Dosage to be used per boost per animal:

Immunogen: Solution <input type="checkbox"/> Suspension <input type="checkbox"/> Lyophilized <input type="checkbox"/> Gel Slice <input type="checkbox"/> Other <input type="checkbox"/> specify:
If any remaining Immunogen at completion: Discard <input type="checkbox"/> Return <input type="checkbox"/>

This immunogen does not contain live pathogens: (Sponsor's initials)

Any material of human origin has been tested by a F.D.A. approved method and found to be non-reactive for HIV-I antibody and Hepatitis B surface antigen (HBs Ag): (Sponsor's initials)

Please check which Storage Conditions are to be used at Josman, LLC: 4° C -20° C -80° C Other:

Recommended Guidelines:

Host Species:	Dosage/Animal/Injection:	Buffer:	Volume/dose
Rabbits	0.1mg – 0.5mg	PBS or other non-toxic	≤ 0.5 mL
Mice	0.025mg – 0.05mg	PBS or other non-toxic	≤ 0.125 mL
Rats	0.05mg – 0.1mg	PBS or other non-toxic	≤ 0.250 mL

Please aliquot immunogen in doses to be given per animal per injection. Each aliquot should contain enough doses for all animals on the project. For example: If there are 2 rabbits on the project, each aliquot should contain both doses.

Special instructions/comments:
